About

Our mission is to empower young people and youth workers with foresight skills to proactively shape the future. Through participatory workshops, innovative methodologies, and a digital community, the project strengthens resilience, engagement, and innovation among youth facing societal challenges.

Project results

We've been busy creating a dynamic manual for youth workers and anyone curious about foresight. Inside, you'll dive into hidden challenges, eye-opening insights, and engaging workshops that bring the world of foresight to life!

Then, you can turn foresight into action with games, quizzes, and interactive presentations. Learn by doing and explore foresight through playful tools, activities and interactive materials we created to make foresight fun, practical, and unforgettable.

Learn and practice foresight by exploring FYI Handbook and Educational Materials available on the project website foresight4youth.eu.
